DETAILED ACTION

1. This action is in response to the request for reconsideration filed July 17, 2009.
2. Claims 1-9 and 12-14 are currently pending. Claims 4 and 12-14 have been previously presented. Claims 1-3 and 5-9 are amended.
3. Applicant's arguments, with regards to claims 1-9 and 12-14, filed July 17, 2009 have been fully considered and are persuasive.

Allowable Subject Matter

4. Claims 1-6 are allowable.
5. The following is an examiner's statement of reasons for allowability:
6. Hardjono teaches sending a communication fragment with an MIC using a target group address. Chen teaches a router performing address-replacement for the direction of communications direction and the recipient performing address replacement for purposes of verification.
7. Claim 1 recites where the router is not part of the trusted group to which the sender and receiver belong. This limitation in combination with the other recited limitations of claim 1 is not taught or suggested by the prior art of record.

Examiner Notes

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections – 35 USC § 112

9. Claims 7-9 and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant should clearly link or associate the elements of the claims with corresponding structures disclosed in the specification. See MPEP 2181.

Response to Arguments

10. Applicant's arguments, with regards to claims 1-9 and 12-14, filed July 17, 2009 have been fully considered and are persuasive. Therefore, the rejections have been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of indefiniteness.
